

High School Sports for 2020-21

Our normal athletic schedule has changed drastically due to our current situation in the state with COVID-19. The majority of our sports will be starting after the winter break in January. These plans may change depending on the course of the virus and the governor's orders. Please contact the coaches below for additional information and questions.

The New Mexico Athletic Association has devised a schedule to try to provide a competitive season for all sports this school year, which, in turn, has caused conflicts not only between the different high school sports but also with club sports. We are aware of the many overlaps between high school sports and clubs and will try to work through them, within reason. High school sports will still take priority over club sports if there are too many conflicts.
